Environmental Protection Seasonal Resource Assistant, Marlborough, CT
CTDEEP Forestry Division

Recruitment #221227-3492VR-011
Salary \$15 - \$19/hour (Depending on relevant education and/or experience)
Job Type Seasonal/Summer
Close Date 6/1/2023 11:59:00 PM

Are you looking to help protect Connecticut's beautiful landscape? If so, we have a terrific seasonal opportunity for you!

The State of Connecticut, Department of Energy and Environmental Protection (DEEP), Forestry Division is currently recruiting for a Seasonal Resource Assistant at our Eastern District Headquarters, with some work required at our Headquarters in Hartford.

Primary work schedule is Monday to Friday up to 40 hours per week on first shift, with flexible schedules and teleworking considered. As a Seasonal Resource Assistant, you will be working in the Forest Protection Program under direction of the Forest Protection Supervisor. This position may also require working in both the Western and Eastern Districts and statewide.

Position length is 1,040 hours, not to exceed 1 year.

ROLE HIGHLIGHTS

As a Seasonal Resource Assistant in the Forestry Division, you will be assisting the Fire Supervisor and Forest Protection Staff in programmatic responsibilities to include but not limited to:

- Collecting, compiling and reporting wildfire statistics data,
- Conducting inventory of program fire equipment,
- Providing administrative support to the Connecticut Interstate Fire Crew, the Dry Hydrant grant program and the Volunteer Fire Assistance grant program as needed,
- Other programmatic duties as directed.

Additionally, if interested and qualified, there may be opportunities for wildland fire suppression and prescribed burn experience along with limited opportunities for wildland fire training.

ABOUT DEEP

The Connecticut Department of Energy and Environmental Protection (DEEP) is charged with conserving, improving and protecting the natural resources and the environment of the state of Connecticut as well as making cheaper, cleaner and more reliable energy available for the people and businesses of the state. The agency is also committed to playing a positive role in rebuilding Connecticut's economy and creating jobs – and to fostering a sustainable and prosperous economic future for the state.

MISSION OF DEEP'S FORESTRY DIVISION

To advance the health, use, conservation, and appreciation of Connecticut's forest resource.

We are a part of the Bureau of Natural Resources within the Connecticut Department of Energy and Environmental Protection (DEEP). The Bureau is charged with managing the State's natural resources (particularly fish, wildlife, and forests) through a program of research, management, public education, and regulation. The Forestry Division is comprised of several important programs that work together to conserve and manage forests.

Connecticut's state foresters and their partners protect our forest resources by:

- Encouraging private land owners to practice responsible long-term forest management (private landowners own 73% of Connecticut's forest, with more than two-thirds of that owned by families or individuals),
- Protecting Connecticut's forest resources from the effects of fire, insects, disease, and misuse,
- Providing accurate and timely information about Connecticut's forest resources,
- Certifying forest practitioners,
- Managing the State Forests, in which exist many large blocks of unfragmented forest land,
- Engaging municipalities and citizens in the work of urban forestry, and
- Promoting the local forest industry.
