Safety Manager
Environmental Manager
Located in the northeast (No other information)

The Witt Group has specialized exclusively in technical placements in the chemical industry for over twenty years. Two of our assignments are for a safety manager and an environmental manager for a 80 person plant located in the northeast. This billion dollar corporation requires a technical degree, a minimum of 8 years experience, and the ability to direct one direct report. These positions report to the site manager and will be responsible for all activities in their area. Salary is about \$100k.

Safety, Health and Environmental Job Openings May 22, 2009)

Following is a list of some of the available job openings in the Environmental, Health and Safety area that I am working on. Should you know of anyone that might be interested in learning more about these positions please have them contact me, Paul Shrenker, directly or feel free to contact me yourself and I will give you more details. My phone number is 413-267-4271; email address pshrenker@comcast.net fax 413-726-9099. All searches and candidate conversations are held in strictest confidence and no resume will be mass distributed. Thanks for your help.

Hope everybody had a great Memorial Day Weekend!!

Environmental Professional (Wastewater Management); North Central OH. This person should have at least 10 years of industry or regulatory agency experience in Wastewater Management. A BS in Engineering, environmental Science or related Science. The successful candidate will provide expertise on environmental issues dealing with Wastewater Management and related programs. As a member of the Corporate EHS Dept, the successful candidate will have the opportunity to work with multiple operating organizations, providing input on the direction of the company's environmental programs and gaining exposure to senior management.

EHS Manager (Eastern SD, north of Sioux Falls) for this international explosive manufacturer. This person will "sit" in SD at one of their plants and also be responsible for another plant in the Chicago area. Total employee population between the 2 plants is approximately 900. This position will have 2 direct reports; an adman and a technical professional. There will be approximately 25% travel between the two locations. The ideal candidate will have 8+ years ehs experience in a manufacturing environment which must include explosive safety experience and a BS in Safety, Environmental or related.

Several positions that I can not post include: Global Director of EHS (Chicagoland) PSM Coordinator, TX; PSM Coordinator, WY; EHS, WI.

NEW Full-Time EHS Consulting jobs nationwide. Those professionals that have eh&s consulting experience that would like to be considered for other consulting jobs, please contact me.

Positions are added weekly. If you or someone you know would like to be informed of future job opportunities as they become available, please forward their name and email address to pshrenker@comcast.net. Additionally I usually have a few other openings that I can't "publish" so please give me a call or email me if interested.
